

Evaporation

Target Age:

Early Four-Year-Old

Skills Learned:

- * Visual Stimulation
- * Concept Development

Activity Category:

- * Science Adventures

Activity Contributor:

Carrie Biales, M. Ed.

What To Do:

Your child's curiosity may be sparked by this fun experiment! Pour one cup of water on an area that gets sun. Draw a line around the wet area with chalk. Pour one cup of water on an area that is shaded. Draw a line around the wet area with chalk. Return to both places periodically, showing your child where the chalk line (water) was poured. Which puddle disappeared first? Why?
