1. Breastmilk or formula, or portions of both, must be served; however, it is recommended that breastmilk be served in place of formula from birth through 11 months. For some breastfed infants who regularly consume less than the minimum amount of breastmilk per feeding, a serving of less than the minimum amount of breastmilk may be offered, with additional breastmilk offered at a later time if the infant will consume more. 2. Infant formula and dry infant cereal must be iron-fortified. 3. Beginning October 1, 2019, ounce equivalents are used to determine the quantity of creditable grains. 4. A serving of grains must be whole grain-rich, enriched meal, or enriched flour. 5. Breakfast cereals must contain no more than 6 grams of sugar per dry ounce (no more than 21.2 grams of sucrose and other sugars per 100 grams of dry cereal. 6. A serving of this component is required when the infant is developmentally ready to accept it. 7. Fruit and vegetable juice must not be served.
