

# PARENT/GUARDIAN REQUEST FOR FLUID MILK SUBSTITUTION

Parents or guardians may now request in writing that non-dairy beverages be substituted for fluid milk for their children with special dietary needs without providing statement from a recognized medical authority. However, fluid milk substitutions requested are at the **option** and expense of the facility/center.

The non-dairy beverage provided must be nutritionally equivalent to fluid milk and meet the nutritional standards set by the United States Department of Agriculture (USDA) for Child Nutrition Programs in order for the facility/center to claim reimbursement for the meal through the Child and Adult Care Food Program (CACFP).

A non-dairy beverage product must at a minimum contain the following nutrient levels per cup to qualify as an acceptable milk substitution:

b. Protein 8 g	e. Magnesium 24 mg	h. Riboflavin .44 mg
