**IT TAKES
100% Heart**

Children thrive when rooted in safe, loving homes!

4C for Children is the one-stop resource for families in Southwest Ohio and the Miami Valley who are interested in opening their homes to children in foster care.

Our FREE services provide the resources and tools for families who are currently providing or are interested in providing short- and long-term care to children who are in need of stable, loving homes.

Our staff of experts, working with community partners, will help you navigate each step of the journey towards becoming a foster family, an adoptive family or in providing kinship care (relatives, extended family members or non-relative adults who have a long-standing relationship or bond with a child).

4C for Children also provides resources and ongoing training for existing foster, adoptive and kinship care families.

Services to Potential Foster Families

- Guidance and support in beginning the foster care journey
- Support throughout the licensing process and beyond
- Connection to resources and community supports

Services to Existing Foster, Adoptive and Kinship Care Families

- Collaboration with individual counties and agencies to best meet the needs of caregivers
- Connection to resources, training and community supports
- Caregiver support including mentoring programs, support groups and appreciation events
