	6 – 11 Months	0-2 Tbsp. vegetable or fruit or a combination of both ^{6,7}					

1. Breastmilk or formula, or portions of both, must be served; however, it is recommended that breastmilk be served in place of formula from birth through 11 months. For some breastfed infants who regularly consume less than the minimum amount of breastmilk per feeding, a serving of less than the minimum amount of breastmilk may be offered, with additional breastmilk offered at a later time if the infant will consume more.

2. Infant formula and dry infant cereal must be iron-fortified.

3. Beginning October 1, 2019, ounce equivalents are used to determine the quantity of creditable grains.

4. A serving of grains must be whole grain-rich, enriched meal, or enriched flour.

5. Breakfast cereals must contain no more than 6 grams of sugar per dry ounce (no more than 21.2 grams of sucrose and other sugars per 100 grams of dry cereal).

6. A serving of this component is required when the infant is developmentally ready to accept it.

7. Fruit and vegetable juice must not be served.
