

Family and Community Services

*When children receive the best care and education early on,
they'll be successful throughout their lives.*

WE'RE HERE TO HELP!

Selecting a child care program is a big decision. Let 4C for Children help you find quality child care options that best meet your needs and the needs of your child. You can rely on our staff to provide you with the information and tools needed to make an informed decision.

WHAT WE OFFER

Referral Service

Contact us about your child care needs and receive FREE support in finding a licensed child care provider. You'll also receive a list of referrals to child care programs with confirmed openings that best meet your needs.

Families facing barriers to accessing and affording child care – stable housing, language, non-traditional work hours, transportation or health and/or developmental needs – may receive additional support in applying for financial assistance and in interviewing child care programs.

Family Resources

In addition to helping you find and choose quality child care, 4C for Children offers a variety of early childhood resources to families such as *Family Source*, a monthly e-newsletter, and Vroom tips. All resources can be found on our website.
